ABOUT ME

I am a 4th-year B.Tech Computer Science student with hands-on experience in Python, Power BI, Excel, and data analysis libraries such as Pandas, NumPy, and Matplotlib. I enjoy working with data, solving real-world problems, and building insightful visualizations. With a strong foundation in both programming and analytical thinking, I am eager to apply my skills in a practical environment and continuously learn new technologies. I work well in teams and am focused on delivering efficient and impactful solutions.

EDUCATION

2018 - 2019	Shri Guru Nanak Mission Hr. Sec. School
Secondary Education	with 76.2 %
2020 - 2021	Daffodils Public Hr. Sec. School
Higher Secondary Education	with 81.2 %
2022 - 2026	Vindhya Institute of Technology and Science
B.tech CSE	Pursuing

PROJECTS

Web Scraping

The objective is to collect and analyze product information to gain insights into pricing trends, customer reviews, and product availability. Using Python and libraries like BeautifulSoup and Scrapy, the project demonstrates the capability to automate data extraction efficiently.

Power BI Dashboard

The organization was facing difficulty in understanding its overall performance due to scattered and raw data across departments. There was a lack of clear visibility into key metrics like sales trends, profits, and customer-wise performance. Management required a centralized dashboard to monitor these insights and support better decision-making.

SKILLS

- Python
- Excel
- Power BI

CERTIFICATION

- Python Certificate
- NPTEL : Data Science for Engineering
- IBM Cybersecurity
