

Pranjal Jain

Profile

I am a 3rd-year B.Tech student with a basic understanding of Python, HTML, CSS, and JavaScript. I enjoy coding and solving problems. I am eager to learn new technologies and improve my skills. I work well in a team and am looking forward to gaining practical experience.

Projects

Web Scraping with API

The objective is to collect and analyze product information to gain insights into pricing trends, customer reviews, and product availability. Using Python and libraries like BeautifulSoup and Scrapy, the project demonstrates the capability to automate data extraction efficiently.

Razorpay web site clone

Developed a clone of the Razorpay website using HTML, CSS, JavaScript to understand UI design

Trainings

Python Programming

Aug 2023 - Sep 2023
